

Experimental Aircraft Association

Chapter 66 Ft. Myers, Fl. Page Field

66 SQUAWK SHEET

PI C Briefing

WWW.EAA66.ORG

When was the last time you checked our web site out?

September 2006

Here it is September. And so far we have dodge any hurricanes. Keep your fingers crossed. Soon our Snow Bird friends will be drifting back down here. It also means that it starts to become busy for us as a chapter. Florida gets active with aviation shows and chapter activities pick up again.

Page Field Aviation is coming up Nov. 18. Even though we don't put it on any more. We do participate in the way of food concession and aircraft parking. This food concession is one of the ways we get revenue for the operation of the chapter. And it helps to keep our dues low. It also keeps good relations with the airport. So between now and November we will be asking for volunteer help.

Mark your calendars on Saturday Dec. 16 for the Chapters Christmas Party. This year we will revert back to our normal Steak Dinner type format at the Chapter building. Watch for more details in the coming months.

The Sport Aviation Expo at Sebring Airport is Jan. 11 to 14. We have been ask to provide personnel to park aircraft once again. Bob Haas will be heading up this function as in the past. He will be looking for parking volunteers. Watch for more details .

Speaking of details. Not all details are presented here in the newsletter. To get all information available you should attend the monthly meetings.

We're going to bring our Young Eagle program into the 21st Century. To do that we need a computer so we can print out the Certificates in a nice format instead of someone's scribble. The computer program will also keep a data base of the YE's and pilots. We have a policy that if a YE returns for another flight, they must wait until new YE's have flown. This data base will help to identify them. So if you have an old computer sitting around we could use it. We don't need anything fancy, just functional. Also I would like to get a Lap Top to keep our financial records on. It would then be easier to pass the records on to future Treasure's, and to pull up past records.

Our aircraft building project has come to a point where we would like to get the engine started. To do this we need a prop. We are looking to barrow any prop that will fit a Continental O-200. We only need it act as flywheel, so any size would do for now. But of course if you have a size that will work for our set up as permanent, we would gladly take your donation or reasonable price.

I'm starting do something I've wanted to do for years. Bring our By-Laws up to date. The most recent written ones we have are the originals from 1967. None of the changes that have been voted in have been recorded in amendments. So if you want to be apart of this rewrite, attend the meetings to give your opinions and to vote on the changes.

Final thing. Some officers and board member terms are coming to an end. This is your chance to help run the chapter. Speak up if you want to be apart of it.

That is All, Paul Yocum

Touch and Go

The Chapter has bought a starter tool kit of basic mechanics hand tools for aircraft and building maintenance. But we can use more to fill in what we don't have. Any extras laying around you don't use? We'll take them.

Please be sure to turn the air conditioners off when you use the chapter building.

Flight Plan

Mark Steinberg will talk to us about Flying to the Bahamas and his planned group trip in December.
